

# ANNUAL GUIDE TO NARROW GAUGE AND MINIATURE RAILWAYS IN THE BRITISH ISLES AND IRELAND: 2003

COMPILED BY DAVE HOLROYDE AND LAWSON LITTLE

The following list sets out to cover all U.K. railways of less than standard gauge, listed in the case of England by county, and elsewhere by country.

Only sites with WORKING lines are included, not static collections, display museums or exhibitions. Temporary industrial sites such as construction projects are also excluded. It should be noted that industrial and most private sites are NOT open for casual visits.

As ever, we rely on members to assist in updating our records. Please send any amendments or additions to either Dave (15" gauge or less) or Lawson (larger gauges). Information appearing in "Narrow Gauge News" is automatically collated and need not be advised separately.

(CiS)	"Coin-in-Slot" Train
